PATIO COMFORT™

Infrared Outdoor **Patio Heaters**

Patio Comfort outdoor infrared patio heaters are designed and crafted to bring warmth, comfort, and enjoyment to your "alfresco" dining and entertainment events. The clean, efficient, and draft free infrared radiant heat feels just like the sun, warming people and objects, while not wasting valuable energy trying to heat air. No longer does the outdoor fun and entertaining have to stop when the sun goes down!

Patio Comfort heaters can provide the perfect outdoor comfort heating solution and are available in a wide variety of colors, mounting options, and are available in both propane and natural gas models.

Natural Gas Heaters

Patio Comfort outdoor heaters are also available for natural gas fueled residential and commercial installations. Our natural model NPC05 models are constructed of the highest quality components for durability, maximum performance, safety, and long life. Our Model NPC05-AB and SS are the only natural gas patio heaters available that includes a commercial quality U.S. Made "MB Sturgis" 12 foot steel lined hose, two solid brass quick couplers, and solid brass safety shut off valve for added safety, portability, and convenience. The NPC05-SPP permanent mount heater also includes an installation kit.

Model NPC05-SS *(Stainless Steel)*
Also Available in Antique Bronze

Model NPC05-SPP
In Ground (Stainless Steel Only)

Model PC02-SS
(Stainless Steel)

Portable Propane Heaters

All Patio Comfort propane powered PC02 Model heaters are easy to move with our standard portable wheel kits. Our heaters are designed with long-term durability, safety, and performance in mind. Our painted heaters are "powder coated" to compliment your patio décor and for added durability. All major components and fasteners used in our heaters are made from commercial grade aluminum, stainless steel, aluminized steel, or brass. We supply the right equipment. You supply the party!

Outdoor Table Top Heater

When a full size “lifestyle” heater isn’t required, take a close look at our Patio Comfort Table Top Heater. This “Mini” outdoor table top provides a 360 degree circle of radiant heat that will heat a six to seven foot circle in minimal wind conditions. Our PC-TT is perfect for smaller outdoor dining areas, or for any of your outdoor activities. The PC-TT is designed for outdoor use only with a standard 16 oz. throw away cylinder (not inc.) For your safety all Model PC-TT’s include a tip over sensor and “ODS” (Oxygen Depletion Sensor) to immediately turn off the unit if it should fall over or senses too little available oxygen.

Please read and follow all assembly, operating instructions, and warnings to fully enjoy the benefits of your heater and to avoid potential fires, serious injury or death from misuse.

Warning: For use in well ventilated outdoor areas only. Never use inside a home, camper, boat, shelter, tent, vehicle or any other unventilated or enclosed area. This heater (and all outdoor heating and cooking appliances) consumes oxygen and creates deadly carbon monoxide gas which can cause serious injury or death. Never attempt to modify or alter this heater, its controls, or safety systems in any way.

Prices and specification materials are subject to change without notice.
